

ONE PLATFORM, OUTSTANDING POSSIBILITIES

AESCULAP® Ennovate® Platform

The challenges in spinal surgery are becoming more and more complex due to incremental workload, the push towards sustainability, and economic efficiency in the healthcare system.^{1,2}

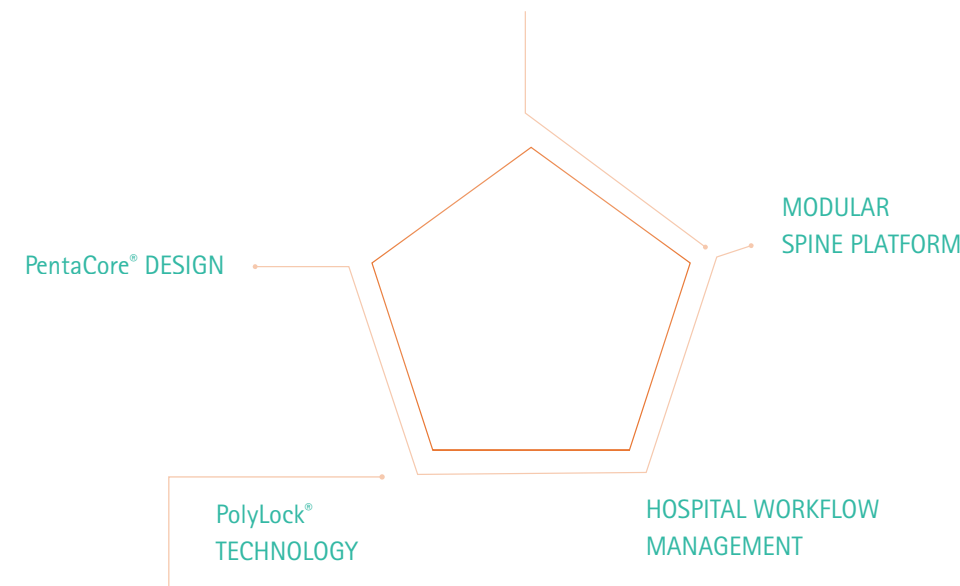

Be smart – Ennovate® is the key to new surgical experiences and optimized hospital workflows.

- Ennovate® is the one platform suitable for a comprehensive range of approaches and indications, providing you with a single source solution for spinal surgery.
- Customizable modules for instruments and implants, according to the hospital profile, streamlines your processes and reduces inventory.^{5,6}
- The unique PentaCore® Screw unites multiple screw attributes into one screw design, enabling intraoperative flexibility and superior biomechanical performance.⁷

AESCULAP® Ennovate® is designed to support you in your daily business, providing optimized processes and reduced economic burden.

SMARTER THAN THE SUM OF ITS PARTS

Ennovate®.
SOLUTIONS BEYOND FUSION

SOLUTIONS BEYOND FUSION

AESCULAP® Ennovate®

ONE MODULAR PLATFORM
DESIGNED FOR HOSPITALS

STREAMLINED PROCESSES, STRONG SUPPORT

AESCULAP® Ennovate® Solutions

DID YOU KNOW THAT ONLY 22 % OF THE COMPONENTS OF AN IMPLANT SYSTEM ARE USED DURING SURGERY AND BASICALLY THE REMAINING INSTRUMENTS CAUSE INEFFICIENCY IN ALL AFFECTED DEPARTMENTS?^{3,7,8}

Be efficient – Ennovate® enables customized instrument and implant portfolio, supporting transparency, leveraging surgical flexibility and creating saving potentials.

- A comprehensive range of modular solutions provides you with a single source solution for spinal surgery and enables for flexible adaption.
- Customizable solutions reduce the amount of redundant instruments and implants, cutting the number of sterilization units by at least 50 % and decreasing economic burden.^{5,6}
- Our process optimization solutions support you in unlocking your potentials by achieving a more efficient time management and savings of about 200 EUR per reprocessing cycle.⁶

AESCULAP® Ennovate® is designed around your individual needs through smart solutions beyond the product.

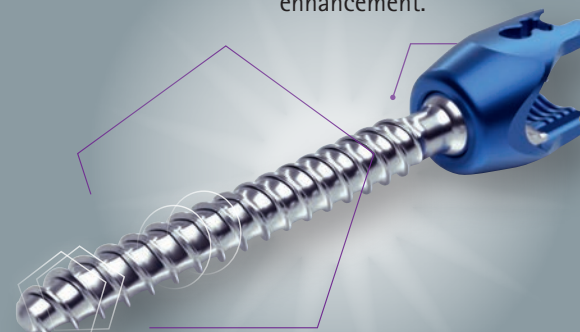

INCREASED PERFORMANCE, ADVANCED EFFICIENCY

AESCULAP® Ennovate®

With AESCULAP® Ennovate®, we introduce a versatile modular spine platform that expands surgical flexibility, streamlines processes and increases efficiency.

The unique AESCULAP® Ennovate® platform provides outstanding intraoperative flexibility:

- The PentaCore® Screw offers great anchorage and unexcelled biomechanical performance.⁷
- The PolyLock® technology unites multiple screw attributes into one screw design.⁷
- Applicable for a broad range of indications and approaches.⁷

Modularly designed to streamline hospital processes AESCULAP® Ennovate® opens a new dimension of standardization and versatility:

- One platform with wide-ranging modular solutions enable increased standardization and enhanced efficiency.⁵
- Customizable portfolio precisely tailored to your needs facilitates lean hospital processes and reduced warehouse stock.
- Comprehensive customer services enable profound competency enhancement.

OPTIMIZED WORKFLOW, ENHANCED COMPETENCIES

AESCULAP® Ennovate® PathWay

Reprocessing is more than just a term – it is the symbiosis of competence, quality, and care for the good of patient and user safety. It is one of our most challenging tasks to guard these values.⁸

- AESCULAP® Academy – seminars and workshops keep medical practitioners, hospital personnel, and hospital management fit for future.
- AESCULAP® Sterile Supply – system solutions, integrating smart instrument management with optimized sterile processing to implement procedures.
- AESCULAP® Consulting Solutions – individual pathways are necessary to overcome daily challenges. We enable our customers to make the best possible decisions.

There is a reliable partner behind sharing expertise. We call it AESCULAP® Ennovate®.
