SOLUTIONS BEYOND FUSION

ELSA Loan Service –

We provide added value as your spine partner providing additional systemic and process management related solutions.

VALUE PROPOSITION

We offer solutions for your individual and specific needs.

With ELSA (European Loan Service of Aesculap), Aesculap helps closing inventory gaps and overcoming bottlenecks in the supply of hospital equipment. The ELSA loan service provides special implants, instruments and instrument sets for your operation. For the hospital, it avoids purchase costs for rarely used instrumentation and helps saving storage space and costs.

Beside the AESCULAP® Ennovate® loan product you can choose from 50 different loan products, including spine surgery, all Aesculap systems and variants for hip and knee endoprosthetics, systems for nail locking and special revision instrument sets.

Aesculap dispatches loan products to customers in Germany, Austria, Switzerland and anywhere else in Europe.

LOAN SERVICE PRODUCT GROUPS:

- Spine Surgery
- Hip Arthroplasty
- Knee Arthroplasty
- Sports Medicine
- Traumatology (locking nail systems)

BENEFITS – DESIGNED AROUND YOUR NEEDS

- Quick and easy ordering process
- Available at the latest 24 hours after ordering
- Cost and capacity efficient service
- Higher flexibility and increased safety
- Complete service
- Bridge any bottlenecks in your OR or OR process
- No stock-holding of product systems at the hospital
- Delivery directly to your location in time
- Close any inventory gap
- Guaranteed flawlessness of instruments and system
- Test and familiarize with a new generation of pedicle screw system
- Test the product before making further decisions on the needs of instruments and implants
- Widening the spectrum of possible treatment options at the hospital
- Power Systems and devices for the time of repairing (if the repair is performed by the Aesculap Technical Service)
- Wide range of systems, including rarely used variants

SOLUTIONS BEYOND FUSION

Trust in our service as
systemic partner providing
intelligent configurations
of the instrument modules
and EASE of use.

INSTRUMENT MODULES

The Ennovate® loan system contains the instrument sets for either OPEN or MIS surgery with the TRAUMA extension module. The instrument sets are designed around your needs according to operating procedure. Depending on your individual and specific needs you may only use the instrumentation for standard surgery or use any extension module depending on the patients pathology, the indication and your daily technique of surgical procedure. For easy orientation the Ennovate® has a consistent color coding from container to instrument tray and implant modules.

BENEFIT:

- Compact instrument trays for standard procedures with extension modules
- No double configuration of instrument sets
- Improved instrument process – cost and capacity saving
- Color coding – ease of use

MODULES	● Ennovate® OPEN	● Ennovate® MIS

(1 / 2) = Tray with insert

SOLUTIONS BEYOND FUSION

COLOR CODING – EASE OF USE

The instrument containers are shipped in BLACK trolleys. For easy identification of the modules OPEN, MIS or TRAUMA each container is equipped with color coded lids and also trays are color coded.

SAFE TRANSPORT AND DOCUMENTATION

The instrument modules are shipped using safe trolleys holding containers inside. Each shipment contains the necessary documentation.

For instacount® users the easy connection to the electronic packing list is provided. Packing lists may also be downloaded from our Extranet after registration (see chapter Ennovate® Brochures).

SOLUTIONS BEYOND FUSION

Trust in our service for
safe shipment and easy
handling of the desired
instrument and implant
modules in your workflow.

IMPLANT MODULES AND COLOR CODING

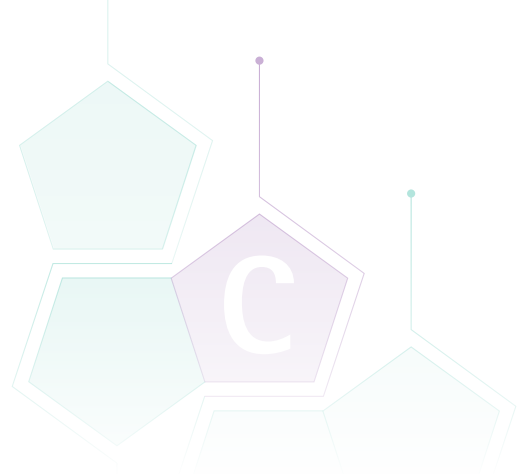

The Ennovate® loan system provides sterile packed implants modules. The implant modules are shipped in GREY trolleys.

Each implant module is stored in baskets marked with the ELSA Loan Set Number. Baskets are stored in ascending order and are equipped with color coded handles for easy identification of the implant module.

EASE OF USE

The baskets can easily be taken out for transport into your available in-house cart.

Ease of use – easy to remove baskets for further internal transport to the OR and restore after use.

Marking
LSET number

Marking
implant module

Example – storage and transport of implant baskets
in-house to OR.

AESCULAP® Ennovate®

C | ELSA LOAN SERVICE – IMPLANT MODULES

BENEFITS – DESIGNED AROUND YOUR NEEDS

- Improved implant management
- Safe and easy handling and processing
- Easy transport and handling of the sterile implants to the OR
- No reprocessing of implants needed
- Time and cost savings for CSSD department
- Safe traceability and documentation
- Reduced risk of contamination or impurity of implants due to sterile packed implants
- Optimization of processes in the hospital
