Important note: Like every science, medicine undergoes constant development. Research and clinical experience expand our knowledge particularly with regard to treatment and medical therapy. Where a dosage or mode of administration is mentioned in this work, the reader can be assured that the authors, editors and publishers have taken great care to ensure that the information corresponds to **current knowledge at the time the work was completed**.

However, the publisher cannot accept liability for information on dosage instructions and forms of administration. **Each user is urged** to establish by carefully reading the package leaflet of the preparation and if necessary after consulting a specialist whether the dosage recommendations given there or the listed contraindications differ from the information in this book. This is particularly important in the case of rarely used preparations or those that have recently been introduced to the market. **Each dosage or mode of administration is at the user's own risk.** The authors and publishers request each user to notify the publisher of any inaccuracies.

Registered trade names (trademarks) are **not** all identified specifically. The absence of such identification does not imply that this is a free trade name.

The work including all of its parts is protected by copyright. Any use outside the narrow limits of copyright law without the publisher's permission is prohibited and punishable. This applies particularly to reproduction, translation, microfilming and storing and processing in electronic systems.

Bicontact®, Plasmacup®, Plasmapore® and OrthoPilot® are registered trademarks of B.Braun-Aesculap AG & Co.KG Tuttlingen.

Acknowledgement

On behalf of the editors, I should like to thank all the authors for their collaboration in this book. Their contributions about the Bicontact system document many years of experience in total hip arthroplasty.

My thanks also go to B.Braun-Aesculap for its support of this book project.

My particular thanks go to Mr Güttler, who provided great assistance in assembling the manuscripts and pictorial material. Thieme Publishing helped greatly in ensuring that this wide-ranging book could be produced within a few months.

I am happy that in this way we have an up-to-date and interesting book on the Bicontact hip arthroplasty system.

Tübingen, June 2007

Siegfried Weller

Contents

1	Introduction	1
1.1	The Bicontact Hip Arthroplasty System: 20-Year Experiences and Results <i>Siegfried Weller, Michael Ungethüm, Harald Stallforth</i>	1
1.2	Basic Principles of Successful Cementless Straight Hip Stems in Europe <i>Dieter Christian Wirtz</i>	6
1.3	Preoperative Planning of the Bicontact Stem with Particular Consideration of the Offset <i>Jürgen Bredow, Franz Maurer</i>	10
2	Primary Hip Arthroplasty	15
2.1	Long-term Results with the Cementless Bicontact Stem <i>Uwe Ochs, Christoph Eingartner, Björn Gunnar Ochs, Christine Huber, Siegfried Weller, Kuno Weise</i>	15
2.2	Results in Patients with Staged Bilateral Bicontact-Plasmacup-THA <i>Arnim Braun, Michael Acker</i>	23
2.3	Long-term Results with the Cementless Bicontact Stem and a Press-fit Cup <i>Andreas Krödel, Ilka Böhning, Gerhard Quack, Thomas Asmuth, Ulf Michaelis, Ivo Michiels</i>	27
2.4	Experiences with the Bicontact Hip Replacement in Patients under 50 Years <i>Peter W. Howard</i>	33
2.5	10-Year Course of Proximal Periprosthetic Bone Mineral Density around the Cementless Bicontact Stem <i>Andreas Reiter, Michael Acker, Arnim Braun</i>	37
2.6	Radiostereometric Investigations of the Primary Stability of Cementless Titanium Hip Arthroplasty Stems <i>Oliver Steimer, Dietrich Pape, Frank Adam, Silke Johann und Dieter Kohn</i>	41
2.7	10 to 15 Year Results of the Cementless Bicontact-SD-Stem: a Retrospective Study <i>Steffen Kohler, Volker Nahmmacher</i>	48
2.8	Total Hip Arthroplasty with the Bicontact N Stem for Dysplastic Hip <i>Tomoyuki Ito, Yoichiro Dohmae</i>	57
2.9	Periprosthetic Bone Mineral Density in Bicontact SD Stem. Five to Ten Years Follow-Up <i>Hiroshi Katano</i>	63
2.10	Is the Histological and Radiographic Degree of Osteopenia a Prognostic Risk Factor for Aseptic Loosening of a Cemented or Uncemented Hip Arthroplasty Stem? <i>Christina Stukenborg-Colsman, Sven Ostermeier, Fritz Thorey, Lukas Cardell, Markus Steinmetz, Henning Windhagen, Carl Joachim Wirth</i>	69

2.11	Initial Results of Bicontact Uncemented Total Hip Replacement	73
	<i>Hariram R. Jhunjhunwala, Javahir A. Pachore, Sunil Kulkarni</i>	
2.12	Bicontact Hip Arthroplasty in Gaucher's Disease	78
	<i>Menachem Itzhaki, Ehud Lebel, and Ari Zimran</i>	
3	Acetabular Implants and Articulation Materials	81
3.1	Pressfit Cup Migration Patterns of Ceramic-Ceramic or Ceramic-Polyethylene Articulation: A Prospective Randomised EBRA Study with Plasmacup	81
	<i>Uwe Ochs, Thomas Ilchmann, Björn Gunnar Ochs, Jochen Marx, Kathrin Brunnhuber, Martin Lüem, Kuno Weise</i>	
3.2	Plasmacup – Clinical Experience and Migration Analysis	86
	<i>Christian Hendrich, Akif Ince, Stefan Heroth, Ulf Sauer, Sascha Goebel, Nicole Wollmerstedt</i>	
3.3	Wear Resistance of UHMWPE Articulations in Total Hip Arthroplasty	90
	<i>Wilhelm Blömer, Elke Lohrmann</i>	
3.4	The Use of Ceramic Bearings in Total Hip Arthroplasty	95
	<i>Hans Jörg Oestern, Herbert Hessler</i>	
3.5	Bicontact Total Hip Arthroplasty with Ceramic on Ceramic Articulation	100
	<i>Edmilson Takehiro Takata, Ricardo Basile</i>	
3.6	Experiences and Results with Cemented, Screwed and Press-fit Cup Implantation	104
	<i>Karl-Klaus Dittel</i>	
4	Hip Arthroplasty in Traumatology	110
4.1	Special Features of Total Hip Arthroplasty in Post-traumatic Arthritis after Acetabular Fracture	110
	<i>Dietrich Schulte-Bockholt, Christian Frank, Andreas Wentzensen</i>	
4.2	Bipolar Treatment of Femoral Neck Fractures at an Advanced Age with Bicontact – a Comparative Study	116
	<i>Jörg Bayer, Christhof A. Müller, Eva Szarzynski, Noemi González Munoz, Norbert P. Haas, Norbert P. Südkamp</i>	
4.3	Results of Treatment of Periprosthetic Femoral Fractures with the Bicontact Revision Stem	122
	<i>Christoph Eingartner, Uwe Ochs, Daniel Egetemeyer, Rüdiger Volkmann</i>	

5	Revision Hip Arthroplasty	128
5.1	Hip Revision Arthroplasty: 15 Year Results for the Treatment of Large Bone Defects with the Bicontact Revision Stem <i>Björn Gunnar Ochs, Rüdiger Volkmann, Christoph Eingartner, Ingo Ludolph, Siegfried Weller, Kuno Weise, Uwe Ochs</i>	128
5.2	Mid-term Experiences with the Bicontact Revision Stem <i>Vijay Moreshwar Kane</i>	138
5.3	Experiences in 96 Hip Arthroplasty Revisions with the Bicontact Hip System <i>Edmilson Takehiro Takata, Ricardo Basile</i>	148
5.4	Revision Total Hip Arthroplasty with the Bicontact Hip System. An Indian Experience <i>Nandu S. Laud, Harish S. Bhende</i>	151
5.5	Medium-term Results with the Bicontact Standard Stem for Cementless Revision Operations <i>Fritz Thorey, Matthias Lerch, Gabriela von Lewinski, Christina Stukenborg-Colsman, Henning Windhagen</i>	157
5.6	Revision Surgery of High-grade Acetabular Defects <i>Eugen Winter, Rüdiger Volkmann, Siegfried Weller</i>	161
5.7	Selected Indications for the Bicontact Standard Stem in Revision Operations <i>Franz Maurer</i>	166
6	Surgical Procedures and Rehabilitation	171
6.1	The Direct Minimally Invasive Anterior Approach with the Bicontact System – Recent Results with this Approach in Japan <i>Kazuhiro Oinuma, Yasufumi Saito, Hideaki Shiratsuchi</i>	171
6.2	The OrthoPilot Navigation System for Bicontact Total Hip Arthroplasty <i>Hartmut Kiefer, Djordje Lazovic, Thomas Güttler</i>	178
6.3	Physiotherapy after Total Hip Arthroplasty <i>Gisela Traub, Eckhart Schwab</i>	185
6.4	Life with the New Hip <i>Honke Georg Hermichen</i>	191
